Product Description

JCB 270T Compact Track Loader

The world's safest Compact Track Loader - flexible, multi-purpose, and highly productive.

The JCB 270T is a large platform machine equipped with the Hi-Viz Powerboom TM which provides greater visibility to the attachments. With a rated operating capacity of 2,723 lbs., this powerful vertical lift, compact track loader is ideal for demolition, breaker work, and using rock saws. It has a low center of gravity to provide better stability when loading on an incline.
